

RANGE

A full-page background image showing a motorcyclist in profile, riding from left to right. The rider is wearing a white helmet with a colorful stripe and a dark jacket. The motorcycle is kicking up a massive cloud of brown dust and dirt, which fills the right side of the frame. The left side is relatively clear, showing the text. The overall tone is gritty and adventurous.

ROCK(S) 'N' ROAD(S)

Rock(s) 'n' road(s) is the all-terrain philosophy celebration that you will be able to experience astride the V85 TT and V85 TT Travel. Whatever destination you choose on your Moto Guzzi will be an unforgettable trip. V85 TT and its Travel variation are the synthesis of two souls: a rock world made up of adventure and off road, inspired by the desire for freedom and exploration, and a road world represented by street travel, with urban and long distance routes, under the sign of minimalism and style.

V85 TT launches the definition of first Classic Enduro dedicated to tourism. It represents a combination of technology and functionality, with iconic traits to ensure durability. The style of the V85 TT is defined by the lines of its tank, its side panels and the front mudguard, as well as its entirely new sculpted transversal 90° V-twin engine. The V85 TT design is full of details that make it stand out immediately such as the original and characteristic full LED circular headlight assembly, at the centre of which, the illuminated eagle - the symbol of the Mandello-based brand - serves as an efficient daylight running light. After the resounding success of the V85 TT, which managed to thrill riders with its ability to combine an elegant and evocative style with cutting-edge technical qualities, Moto Guzzi introduces the Travel version, with outfitting that includes a selection of accessories that are essential for travel, such as side panniers, a Touring windscreen and heated hand grips.

UNIQUE DESIGN AND CHARACTER

The frame in painted steel tubing highlights the muscular and dynamic character of the V85 TT range. In addition to favouring handling, it ensures maximum stability at the highest speeds, even at cargo capacity. The fairings are reduced to the bare minimum, in line with the unique personality of the model. The minimalism of the V85 TT's lines is completed by standard equipment, indispensable for off-road routes: handguards, aluminium oil sump guard, high front mudguard, fork stanchion guards and a high exhaust system silencer.

COMFORT ON ANY ROUTE

With its proportionate dimensions, it is accessible to riders of any stature and experience (the seat is just 830 mm high), slender at the centre to allow freedom of movement. The generous 23-litre fuel tank guarantees a range of more than 400 km and contributes to enhancing the look of the V85 TT and V85 TT Travel, along with the seat and side panels. The harmony that joins these three elements to the engine is characterised by a particular crossing of lines, typical of Moto Guzzi. The tubular-structured frame also exploits the engine to ensure the stiffness needed to guarantee an efficient and fun ride on the road and outstanding balance even on dirt routes. V85 TT and V85 TT Travel are ideal travel companions, but they provide a spirit of adventure even on your everyday rides.

BEATING HEART

The energy of the new Moto Guzzi engine makes the V85 TT range unique. The Classic Enduro has the exclusive air-cooled transversal 90° V-twin engine with OHV distribution and two valves per cylinder, the pride and tradition of the Mandello Eagle. In virtue of its total redesign, the 853 cc engine capacity cranks out significantly increased power and torque: 80 HP and 80 Nm. Lightweight and quick, the new engine is able to satisfy even the most expert riders in any road riding needs, as well as tackle the stress of off-road riding.

HI-TECH EXPERIENCE

With V85 TT and V85 TT Travel, you can use the start button to choose between the Road, Rain and Off-Road riding modes based on the weather conditions and your route. These Riding Modes activate a different engine map, a specific MGCT traction control (can be disabled) and ABS setting (which is disabled at the rear wheel by default in Off-Road mode, with the option of being disabled at the front as well) and a personalised Ride-by-Wire throttle response. The Cruise Control feature keeps the speed constant, without having to touch the throttle. All travel parameters can be controlled via the digital instrument cluster complete with TFT display, on which the background and colour of the characters adapt to different light conditions thanks to a built-in sensor. With V85 TT and V85 TT Travel, the technology defines a new, richer and more complete travelling experience both in daily riding and in touring or adventurous off-road riding.

V85 TT Travel comes standard with Moto Guzzi MIA, the new multimedia platform from Moto Guzzi that lets you connect your smartphone to the vehicle, extending the functions of the instrument cluster. By using the control unit (available in the Moto Guzzi accessories catalogue for the V85 TT version), you can place/receive phone calls using a helmet intercom and play music.

The navigation feature* lets you search and set the destination for your trip, viewing the indications on the instrument cluster through intuitive icons.

*The navigation feature is free for three years from its first use. The customer can manage the optional renewal through an in-app purchase.

THE VOYAGE OF A LIFETIME

The V85 TT's vocation for travelling is enhanced by the Travel version, thanks to the standard equipment dedicated to adventurous touring. The distinctive elements of the V85 TT Travel are its taller Touring windscreen that provides the riders with better protection from the air and a pair of compact side panniers made of plastic with aluminium inserts, fitted with locks that match the ignition key. Heated hand grips and the pair of supplementary LED lights also come as standard equipment. The range of special equipment is rounded out by Moto Guzzi MIA, the multimedia platform that allows the rider to connect a smartphone to the vehicle, extending the functions of the instrument cluster. Moto Guzzi V85 TT Travel comes in the exclusive Sabbia Namib colour scheme, enhanced by dedicated graphics. The Michelin Anakee Adventure tyres highlight its adventurous attitude. The technical characteristics, practicality and handling that made the V85 TT so successful remain unchanged, for a unique riding experience, whether on your everyday commute or long-distance travel.

ACCESSORIES

The vast range of accessories, more than 30 items, lets you enhance the versatility of the V85 TT range, emphasising the different souls, based on your preferred riding style. There are three configuration modes that meet the needs of the various use profiles:

Touring: accessories dedicated to travel, they increase cargo carrying capacity and the comfort of both rider and passenger.

Sport Adventure: these enhance the sporty and off-road character, at the same time ensuring maximum protection and safety.

Urban: safety and comfort are also ensured by a selection of Urban accessories designed for daily commutes.

The range is also enhanced by a dedicated line of rider accessories such as helmets, gloves, riding jackets and riding pants.

DEDICATED SERVICES

Thanks to the Care services offered by the brand, you can drive your bike without a care in the world. Benefit from an extended warranty (1 or 2 years), and choose from a selection of different routine maintenance packages, in accordance with your needs.

When you purchase one of our Service Packs, you will be entitled to periodic scheduled maintenance interventions, in line with the specifications set out in the use and maintenance manual.

2 YEARS 3 service coupons (1,000 - 5,000 - 10,000 km)

3 YEARS 5 service coupons (1,000 - 5,000 - 10,000 - 15,000 - 20,000 km)

Thanks to the Maintenance Check, you will be able to always keep your bike under control, in the times and ways that best suit you, through a complete check-up of your vehicle, in addition to the replacement of a pair of brake pads, carried out exclusively by highly specialised personnel.

X-CARE

The X-Care warranty extension completes the dedicated services on offer, protecting your peace of mind when it comes to your bike and allowing you to travel worry-free, with a 1 or 2 year warranty which includes roadside assistance:

- Coverage of repair costs for faults due to manufacturing or assembly defects on parts
- Replacement of any damaged parts with original spare parts, labour included
- Roadside assistance which guarantees non-stop mobility in addition to the breakdown recovery and towing services
- Specialised, certified Piaggio Group Service assistance
- Maintenance of the retail value of your used vehicle in case you decide to sell
- Coverage throughout Europe

Ask your dealership or your authorised service centre for full details of the services and coverage available in your country.

The dream of riding a Moto Guzzi is now even easier to achieve, thanks to Piaggio Financial Services, the new Piaggio Group platform dedicated to the most innovative financing solutions.
